Congressional Matters

A Forecast of the Week's Work

IN BOTH SENATE AND HOUSE.

The Senate Will Finish the Tariff Debate but a Vote Will Not Be Taken Until Next Week—Contested Election Case to Be Decided by the House.

WASHINGTON, Sept. 1.—The senate will conclude this week the consideration of the tariff bill. The vote will not be taken until the week following, but all general debate will come to a close this week. Some of the most important features of the bill, particularly the reciprocity question and sugar clause, are still to be debated, and as so little time remains at the disposal of senators for the discussion of these matters, every possible moment will be utilized and night sessions will be held on Monday, Tuesday and Wednesday.

The conference report on the river and harbor bill is about ready and will probably be laid before the senate tomorrow. Secretary Frye will doubtless ask that it be printed and then he will ask that it be agreed to. If any disposition is shown to debate it, it will be allowed to go on until the tariff discussion is concluded; but Senator Frye believes that it can be disposed of without debate. The conference report on the land grant forfeiture bill which is now pending will also be allowed to go over till next week, tariff talk, therefore, will absorb the attention of the senate during the week.

Bills in the house calendar will be called up for passage in the house on Monday which is "Suspension Day" under the rules. On Monday in accordance with notice previously given, the contested election case of Clayton against Breckenridge from Arkansas will be called up and the discussion will probably last for two days. The rest of the week may be given to other contested election cases or to committees that feel that they have been neglected, and there is also a probability that the conference report on the river and harbor bill will be discussed.

Adjournment Prospects.

WASHINGTON, Sept. 1.—The introduction of the Edmunds resolution in the senate does not indicate the possible time of the adjournment of congress. It will not be possible for the house and senate to clear up the work by Sept. 19, and probably not by Oct. 1. Speaker Reed is quoted as saying that an adjournment will probably be had Oct. 8. The president, it is known, does not expect congress to get away before the middle of October.

It is this belief that has made it seem wise to him to join his family in the mountains to get a little rest before the trying experience before the last days of the session. In addition to the debate in the house and the serious differences to be adjusted in conference on the tariff question, there is the contest over the bill to relieve the Federal courts, which is before the senate, and over the bankruptcy bill, which seems likely to pass, and for the land bill, for which the senate will doubtless substitute the pure food bill or some other measure, congress can hardly get away before the 1st of October.

Saturday's Congress Proceedings.

WASHINGTON, Sept. 1.—In the senate Saturday several unimportant bills were passed. The tariff bill was taken up and consideration of the wool schedule resumed and continued until adjournment.

In the house the bill to adjust the eight hours' claim was passed. Also a bill amending the alien labor act. Also a bill to prohibit the employment of contract labor on government works, and to prohibit the use of supplies furnished by convict labor. Also a bill relating to signals at sea, and also a bill relating to lands in Dakota.

SHE BECAME A CLAM.

Two Sultors Ran a Novel Race for a Michigan Widow's Hand.

LAFER, Mich., Sept. 1.—Lewis Clam, lives in Burnside township, this county, so does Albert Butler, and likewise a pretty young widow. Both Clam and Butler fell in love with the widow and she kept them both on the string. Clam called on her Tuesday night and told her how much he loved her and wanted her to change her name. She consented, and Friday was named.

Clam had no sooner left the house than Butler, who had been waiting outside, called and earnestly advised her not to be a Clam. She said she would not if he would make haste and get a marriage license. But promised to use all haste, but Clam found out Butler's intention, and as soon as the county clerk's office was opened Wednesday morning he got the license. Less than an hour afterward Butler got his license and Clam heard of it. Each knew the other's intention and each hired a horse to beat the other to the widow's house.

Butler played in hard luck, as he got a horse that had the heaves, and while his horse was standing still in the road and coughing as if his ears would drop off, Clam dashed by and arrived at the widow's house ten minutes ahead of Butler, and by the time the tardy young man arrived at the justice's house to urge his case the widow had become Mrs. Clam.

Lived with a Broken Neck.

SEBASTIA, Mo., Sept. 1.—F. J. Woodward, a former conductor on the Missouri, Kansas and Texas railroad, who had his neck broken in a wreck on July 10, arrived here yesterday. His head is kept in position by a brace. His general health is good. As far as is known he is the second person who ever lived after having his neck broken.

MONEY GONE, BONDS RECOVERED.

An Absconding Bank Teller Suddenly Surprised By a Detective.

NEW YORK, Sept. 1.—On April 2 last Frederick Kimball, the paying teller of the People's saving bank of Worcester, Mass., absconded from that place with \$43,500 worth of bonds and cash, abandoned his wife and two children and went to Europe with a French Canadian woman Estelle Le Bon. The woman came back to New York alone a few days ago and was spotted on the day of her arrival by Worcester detectives. Letters to her were intercepted showing that Kimball was about to return.

Yesterday the woman left her home and was followed by the detective to the dock of the French line steamer La Bretagne where she eyed narrowly everyone who left the vessel. Suddenly she rushed up to a well-dressed middle-aged man, threw her arms around him and kissed him repeatedly. The detectives interrupted the love scene by arresting both participants and taking them to the police headquarters where Kimball was fully identified and all of the stolen bonds were found sewed in his neckerchief but the stolen cash had been spent. Kimball took his arrest very hard. Both he and the Le Bon woman were locked up to await a requisition from Massachusetts.

GERMAN CELEBRATION

In Honor of the Landing of the First Immigrants in America.

EVANSVILLE, Ind., Sept. 1.—The anniversary of the landing of the first German immigrants in America will be celebrated on a grand scale in Evansville, Oct. 6 and 7.

All German societies of the city have combined to prepare for the event, and it is proposed to make this one of the most imposing celebrations ever held here. The first day will be devoted to the reception of visiting societies, and at night there will be grand mass choruses of all the German singing societies and orations by prominent speakers.

During the forenoon of the second day there will be a grand parade of all German societies and organizations. In the afternoon a monster picnic will occur at Garvin park. In the evening the event will close with an imposing historical parade, with brilliant illuminations and fire works.

She Cut the Scaffold Down.

NEWARK, N. J., Sept. 1.—Saturday a number of workmen swung a scaffold from the roof of the house of Mrs. Josephine Rogers in order to reach the upper portion of a house adjoining in course of construction. Mrs. Rogers ordered the scaffold down, but the command was not obeyed with sufficient alacrity to suit her. She darted into house and soon emerged with a knife with which she cut the rope holding one end of the scaffold precipitating William McMahon, a painter, a distance of thirty feet to the pavement. McMahon's breastbone was broken and internal injuries inflicted from which he will probably die. Mrs. Rogers was arrested and held for the grand jury.

Latest from Samoa.

SAN FRANCISCO, Sept. 1.—The steamer Alameda brings advices from Apia, Samoa, under date of Aug. 12, as follows: Action has been taken here recently by the consul representatives of America, Great Britain and Germany to quell the discontent growing out of the apparent efforts of the former king, Mataafa, to regain his lost power. The consuls issued a proclamation warning the discontented natives against forming any intrigues to place Mataafa in power, and declaring that Mataafa had been recognized as king of Samoa by the three powers, and that any Samoan village that should rebel against him would be severely punished.

Captured a Burglar.

WABASH, Ind., Sept. 1.—William Gribben, the clerk at Bach & Hipskirk's clothing store, sleeps over the store. About 1 o'clock Saturday morning he was awakened by a noise in the store, and going down in his bare feet, he found that some one was in the basement boring holes through the trap-door to his room, dressed, went down to the street by an outside stairway and hunted up the night-watchman. Together they came back and neatly caught their man just as he was coming out of the basement after more tools. The burglar is about 35 years old, but refused to give his name or residence.

Went to Sleep on the Truck.

EVANSVILLE, Ind., Sept. 1.—Joseph Isaacs, a well known citizen of this place, was run over and killed at Mount Vernon, Ind., yesterday, by a freight train. He was visiting relatives at that place, and it is supposed that he was under the influence of liquor, and laid down across the track to take a sleep. His body was horribly mangled.

The Great St. Clair Tunnel.

POINT EDWARD, Ont., Sept. 1.—The shields were joined in the Grand Trunk tunnel under the St. Clair river at 11:30 o'clock last night. They fitted exactly. Only the interior of the shields required to be moved, and the metal lining substituted to complete the iron tube from end to end of the tunnel.

Pasteur's Theory a Success.

NEW YORK, Sept. 1.—Dr. Gilber, the head of the local Pasteur institute, arrived from Berlin yesterday by the steamer La Bretagne. He had attended the conference of medical men at Berlin which he says adopted the opinion that Pasteur's theory was a success.

English Now Want Earth.

DENVER, Sept. 1.—The News, of this city, asserts that an English syndicate, headed by C. C. Morgan, has secured an option on all the leading silver mines near Aspen, Col., for the enormous sum of \$27,000,000.

France and America.

Tariff Dispute Between the Two Countries

DISCUSSED BY FRENCH PRESS.

One Paper Thinks That Americans Can Not Exist Without French Wines. Other Dispatches from Over the Ocean.

LONDON, Sept. 1.—The chief topic of discussion in French press continues to be the tariff dispute with America. The articles show a great variety of opinions as to the proper course to be pursued by the government. Some of the writers advocate a bold policy of self-protection regardless of possible retaliation by the United States, while others betray an almost ludicrous terror lest France should lose the American custom for some of her most important products. These latter beseech the government not to do anything to anger the Washington government.

Among the former class of journals is La Liberté, which says that the resolution in the American senate, authorizing the president to exclude the products of any country that discriminates against American products, is nonsense, as America could never do without French wines, and the best classes in the United States would protest against being deprived of that and other luxuries and necessities supplied by France, and the whole topic is a burning one for French producers. The English merchant Mr. Mark's act has greatly injured French trade with Great Britain, as French goods can no longer be sold as of English manufacture, and the American tariff bill has put the French in a still unhappier frame of mind.

A Strike Growing Serious.

MELBOURNE, Sept. 1.—The excitement over the strike of seamen, miners and other workmen is increasing, and the situation is growing more serious. The entire police force and 1,000 special constables were on duty in this city yesterday, but the labor demonstration passed off quietly. There were 40,000 men in the procession, representing all the trades. At the meeting which followed a resolution was adopted thanking the English unions for their financial support. Owing to labor troubles the gas companies are unable to furnish a full supply of gas and the streets are partially lighted with electricity. The Sydney government has decided to barricade a portion of the circular quay in order to afford security to the "black-legs" against attack from the union strikers.

Terrific State of Affairs.

LONDON, Sept. 1.—The Daily News' dispatch from Igdir says that it is reported that the governors in Armenia have been ordered to arrest as conspirators any Armenians found conversing together in the street and to send them to Constantinople. If they resist they are to be shot down.

Greek Damages Done by Floods.

GENEVA, Sept. 1.—The excessive rains resulting in serious floods have converted the Austro-Swiss frontier into a series of lakes. Hundreds of houses are isolated by the flood and immense damage has been done to crops and property of various kinds.

Honoring Dr. Peters.

BERLIN, Sept. 1.—The emperor has conferred the crown order of the third class upon Dr. Peters. The doctor was invited to the imperial palace to recount his travels to the emperor. Several of the royal princes were also present to listen to the recital.

A Strike Averted.

LONDON, Sept. 1.—The signal men on the Welsh railways have been granted the concessions by them, and the threatened general strike to enforce the demands is averted.

Looks Rather Suspicious.

PHILADELPHIA, Sept. 1.—Edward Farrell and Hugh Murphy, of Manunk, each aged about 12 years, were stealing apples from an orchard yesterday when Farrell was shot in the abdomen and fatally wounded. Farrell was standing in the road and Murphy was picking up the apples in the orchard when a shot was heard and Farrell called to Murphy that he had been shot. Murphy helped Farrell home and then went to his own home where he remained but a short time. Shortly after he had disappeared a revolver was found in his room with one chamber empty. Farrell will die.

A Little Girl's Skull Crushed.

PHILADELPHIA, Sept. 1.—At Chambersburg Saturday night a traveling acrobat named Bond attempted to give a tight rope performance. One end of the rope was fastened to tree and the other to a pole placed on the ground. Bond was so drunk he could scarcely go through his performance, and as he was about concluding it the pole fell and struck a little girl in the crowd named Nannie Eyer, crushing her skull and breaking both her legs, from which injuries she died in few hours. Bond was arrested and the coroner is investigating the case. The victim was 11 years of age.

Done Up by Foot Pads.

ALTOONA, Pa., Sept. 1.—"Your money or your life" was the demand which met Samuel Frances while walking in the eastern portion of the city at an early hour Sunday morning. It came from foot-pads and when Frances made a desperate resistance he was brutally assaulted and left to die. His tongue was wrenched from his root in the attempt to keep him quiet and his condition, when he crawled to a neighboring house unable to speak, was pitiable.

WEATHER CROP BULLETIN.

Latest Report Sent Out by the Agricultural Department.

WASHINGTON, Sept. 1.—The weather crop bulletin issued for the past week says: The weather during the past week in the wheat and corn regions of the central valleys and northwest was generally favorable, and the condition of all crops was improved. The harvesting of wheat was interrupted in Minnesota and North Dakota by rain.

The corn crop was greatly improved, although the weather was too cool for rapid growth. Iowa reports corn and potatoes improving, better crop than was expected a month ago, but two or three weeks of favorable weather will be necessary to place the corn crop out of danger. From Kansas eastward to Ohio and Kentucky the corn crop was much improved. Missouri reports prospects of an average crop, and in Kentucky corn and tobacco were greatly improved with prospects of a better crop than was expected.

In the west gulf states the weather was generally favorable for cotton: the crop is opening well in Arkansas; picking has progressed rapidly in Texas. Some damage was caused to the cotton crop in Mississippi, Louisiana and Tennessee by recent heavy rain and injury from hailstorms is reported from portions of Mississippi and Louisiana. All rays were improved from Alabama eastward to North Carolina, and South Carolina, and cotton picking is progressing rapidly.

In New Jersey, Pennsylvania and Virginia the crops were greatly improved, except in the northern portion of Virginia. New Jersey reports conditions favorable to all crops and that the yield of cranberries will be 15 per cent. greater than that of last year. Fine weather favored the harvest of a large tobacco crop of excellent quality in Pennsylvania. In New York the weather was too cool for rapid growth of corn and heavy rains caused injury to potatoes.

Reports from New England show that corn is maturing slowly, and it will require several weeks more of favorable weather to assure a good crop. Light frost occurred in the Connecticut valley on the 24th.

In Oregon the weather was favorable for harvesting and threshing, both of which are nearly completed. The absence of rain favored the drying of a large prune crop, and the hop crop will be ready for picking next week.

AFTER GOLD IN SOUTH AFRICA.

Letter from a Member of the Expedition Into Mashonaland.

KANSAS, Ill., Sept. 1.—Professor C. A. Orr, of this city, who is accompanying the British South African company's expedition into the hitherto closely guarded gold fields of Mashonaland, South Africa, writes to his father, Judge Orr, under date of July 25, that King Lobengula intercepted the expedition on the borders of his possessions with messages designed to intimidate the expedition from further advances, notwithstanding the agreement which he had entered into with the British South African company.

The commander of the expedition, which numbers 600 men, and is thoroughly armed, replied that any opposition or receding on the king's part now would involve him in a fight with the white men. Though the king has extended only the privileges of mining to the company, Professor Orr says it is understood among the Englishmen that the expedition is really an imperial one sanctioned by the home government, to take a definite possession of the entire domain of Mashonaland, which until the recent aggressions of Lobengula, was under independent chiefs, and that the prospect of a governor of the province is a member of the expedition. Fabulous stories of the wealth of the gold diggings and the richness of the agricultural lands are current in the expedition and at home. Every member of the expedition proper is to receive 3,000 acres of land as soon as the English government is established. The invading army has been on the march since April 15, having started at Cape Town, and has traveled 1,000 miles in ox carts.

Fight to a Finish.

MEMPHIS, Sept. 1.—Tommy Banforth, of Streator, Ill., and "Reddy" Brennan, of Memphis, fought a finish fight with two-ounce gloves yesterday for a purse of \$500, at Mount City, Ark., about five miles from here. The men weighed about 128 pounds each. Brennan secured the first knock down in the first round and first blood in the second, and finally knocked him out in the eighth round by a terrible right-hand uppercut over the left eye, following it up with a heavy blow on the neck. Both men were badly punished.

Air Ship Explodes.

LINCOLN, Neb., Sept. 1.—The "City of London," Professor Ten Broeck's air ship, exploded near this city yesterday afternoon just as the professor was preparing to make an ascension. F. E. Knapp, an assistant, was badly injured. The balloon was entirely consumed. The air ship was valued at \$4,000.

Vacante Mill Burned.

MINNEAPOLIS, Sept. 1.—The Lighthouse saw mill was totally destroyed by fire at 6 o'clock Sunday morning. The mill was owned by Frederick S. Ivens, and was valued at \$60,000; insured for \$30,000. About 300 men are thrown out of employment. The cause of the fire is unknown.

A Toll Keeper Beaten to Death.

WILMINGTON, Del., Sept. 1.—John Genn, aged 70, a toll keeper on the Wilmington and Philadelphia turnpike, was beaten to death last night by three men from whom he attempted to collect toll. The men made their escape.

One Lawyer Kills Another.

HERNANDO, Miss., Sept. 1.—C. R. Boyce was shot and instantly killed here Friday by R. C. Foster. The difficulty grew out of family troubles.

PAYNTER.

What the Papers of the District Have to Say About Our Representative.

Cynthiana Times: "It is thought that the Farmers' Alliance will put forth a candidate for Congress in this district, and Alexander Bruce, a well-known Lewis County Republican, is mentioned as the man likely to be selected for slaughter by our Democratic Paynter."

Flemingsburg Times-Democrat: "Mr. Paynter has been an efficient, painstaking Representative, always alert to the interest of his constituents and faithful to the Democratic party. He offers his record as a Representative as his recommendation, and is willing for the party to judge by that whether he be worthy of an endorsement."

Owingsville Outlook: "Hon. T. H. Paynter is announced in another column as a candidate for re-election to Congress, subject to the action of the Democratic party. If ever there was a man that deserved a re-nomination and election, that man is Thos. H. Paynter, and the chances are that he will receive the nomination without opposition, and there is no doubt of his election."

A special to the Cincinnati Commercial Gazette says: "Hon. T. H. Paynter had lots of hien tenants on the grounds for his indorsement, considerable kicking occurring in the convention. Vanhose and Marcum, of Boyd; Sullivan, of Lawrence; Taylor, of Greenup; Harbeson, Lewis and Malone, of Carter, were boisterous in their acclamation of Paynter's indorsement. The convention adjourned in confusion before all the business was completed."

Cynthiana Democrat: "Mr. Paynter is resident of Greenup County, Ky., and is at present representing us in Congress. His Democracy is of the kind that will withstand all assaults and reaches from his hair to his heels. He is known as one of the most faithful workers in Congress and is always at the post of duty. We hope he will have no opposition, as he deserves the heartiest endorsement and we don't believe there is a Democrat in the district who will oppose him and a Republican will receive the 'biggest' defeat of the decade."

Catlettsburg Democrat: "It was under the leadership of this gallant young Democrat that this district was redeemed from the Republicans and brought safely back within the ranks of the Democratic party. With Mr. Paynter as our standard bearer and a united Democracy to rely on, the Democrats of the Ninth have nothing to fear. The Republicans, however, are not going to lie still and let the Democratic candidate have an easy walk-over; on the contrary they will make a hard and bitter fight to regain control of this district by nominating some man with barrels of money, who expects to be elected by putting up plenty of the 'filthy lucre.' The late election showed conclusively that harmony prevails in the ranks of the Democracy in this district, and the party has only to present a solid front and the victory will be ours."

Widow of a Former Mason Countian.

BULLETIN readers will remember the reports of the marriage of Dan Rice, the great showman and clown, to a wealthy widow in Texas, which the newspapers mentioned some time since. We have it on good authority that this lady was the widow of a former well-known Mason Countian, Robert Greathouse, who went from near Washington to California in the early days of the gold excitement in that State, and afterwards removed to Texas, where he died, leaving his widow possessed of a large estate. Greathouse was related to the Formans and was well known about Washington.

NO NOMINATION.

Doings of the Farmers' Alliance Convention of This District at Grayson, Carter County.

The F. & L. U. or Farmers' Alliance of this Congressional district held a convention at Grayson, Carter County, last Friday. About three hundred delegates were present. The convention was opened by a speech by G. W. Comer, the Alliance State Lecturer, stating that the convention had been called for the purpose of coming to a better understanding and unity of affairs of the order. State President Erwin, of Bowling Green, was made temporary Chairman and I. S. Williams, of Boyd, County, Secretary. Permanent organization resulted in George W. Prichard, of Carter County, being chosen Chairman, and I. S. Williams, of Boyd, Secretary by acclamation.

The Committee on Resolutions reported a hatch which were immediately pushed to a vote and carried. The resolutions suggested that a more permanent organization in the district be made and that sub-Unions of each county in the district select delegates to the county meetings at each county seat to be held October 4, and select each a member of the Executive Committee of the Ninth Congressional District, and that said members selected meet at Vanceburg, Ky., the time to be called and there select a chairman of the members, and if he sees cause to make a call for the holding a District Convention he may do so and shall state in the call the object of the convention.

County Indebtedness.

A statement issued by the Census Bureau regarding the debts of counties in the State of Kentucky shows that the bonded indebtedness of the counties in the State has decreased \$669,652 since 1880, the total now being \$5,499,677. The floating debt has increased \$8,686, being now \$261,957. The net debt, after deducting total available resources, is \$5,208,709. This is larger than the county indebtedness of any other Southern State except Texas, but is much less than the county debts of Ohio, Illinois, Missouri, New York, Kansas or Pennsylvania. The total county indebtedness of Indiana is \$3,983,742, a slight decrease in the past ten years.

The counties in the extreme eastern and southern section of this State have very little indebtedness, while those in the central and southwestern show heavier indebtedness. Such counties as Owen, Franklin, Harrison, Pendleton, Scott, Fayette, Mercer, Washington, Marion, Taylor, Muhlenberg, Caldwell, Lyon and McCracken show heavy indebtedness.

A Regular Dog-Killing.

The Richmond Clinax says: "The dog-killing season has commenced, on account of a nonpayment of the dog tax, and several amusing occurrences are related by Capt. Feeney. He went to a place and out came a huge dog named Garfield, which was summarily dispatched, and instantly there came another named Blaine, which went the way of his unfortunate companion. Next day another dog named Reed was killed and if Grant had not crawled under the house he too would have passed to the great beyond. The officer is soundly abused by the women, and blubbered at by the boys, while the men look to be of the meat-ax persuasion. Collector Baxter tells us that men have paid him the requisite dollar tax, who never paid a cent of poll tax in their lives, and rarely have a square meal. The burial of Blaine and Garfield took place in Dr. Buckley's back-yard with a large crowd of collarless dogs in attendance, Zieman's Bob conducting services."

County Court Doings.

Wm. M. Ray qualified as executor of Wm. P. Ray, with Thos. B. Roberson, H. M. Pyles and Thos. P. Ray sureties. Appraisers: J. M. Ball, W. T. Grover, Sr., and H. M. Pyles.

Robert C. Kirk produced Saturday a certificate of his election as Jailor, and qualified, with Richard Dawson, H. D. Watson and James Ennis as sureties.

Thomas R. Phister produced in court this morning a commission from the Governor showing his election as County Judge, and qualified, with C. M. Phister, J. J. Perrine, Robert Perrine, Jr., and N. Cooper as sureties.

"Bring in Another Hauss."

This city is now in possession of a regular income of \$25 a week, that being the amount of weekly forfeit agreed upon with Mr. D. J. Hauss for each week after August 1st in which our streets were not lighted by electricity. In the language of Vice President Stevens, "bring in another Hauss."—Flemingsburg Times-Democrat.

ALLEN VANTINE, of Chester, an employe at Carr & Tolle's "Magnolia" Flour Mill, while descending from the second floor of the mill Saturday, slipped and fell to the foot of the stairway, breaking one of his arms between the wrist and elbow. Dr. Phillips set the fracture.

Here and There.

Mrs. C. Bauder is visiting relatives at Newport.

Mr. R. B. Lovel and bride arrived home last evening.

Mrs. Mary T. Caldwell, of Sharpsburg, is visiting relatives at Washington.

Mr. Frank P. O'Donnell left this morning on a visit to relatives in Chicago.

Mrs. Bessie Fortune, of Newport, is visiting Mrs. Dennis Gebben, of the Fifth ward.

Mrs. C. H. Nicholson is visiting her daughters, Mrs. Henry Held and Mrs. W. O. Giani, of Newport.

Miss Katie Archdeacon and Miss Ila Meyers, of Carlisle, have returned home after a visit to Mrs. Edward Breen.

Miss Agnes Breen left Saturday morning, to attend school the coming session at "Mt. Admirables," White Sulphur, Ky.

Messrs. Frank Winter and Robert Brown, of Springfield, returned home Saturday after a visit to friends in this city.

Miss Kate Burns left for her home in Covington yesterday evening after spending several weeks with Miss Hannah O'Hare.

Mrs. Clarence Wood, of Washington, leaves on Monday next for West Superior, Wis., where her husband is engaged in business.

Mr. John McNamara left Saturday afternoon for Pekin, Ill., to take charge of a department in a large distillery at that place.

Miss Ambler, a niece of the lamented surgeon Ambler, of recent Arctic fame, is visiting the family of Mr. W. H. Darrett, near Washington.

Miss Lulu Warner, who has been the guest of Miss Anna Childs, returned Saturday to her home at Manchester, accompanied by Miss Childs.

Misses Eliza and Jessie Carlisle have returned home after a pleasant visit to Maysville, Ky. They were the guests of the Misses Hill.—Cincinnati Enquirer.

Misses Mary Griffith, Emma Tanner, Maggie O'Brien and Maud Donelia, all of Huntington, W. Va., arrived last evening to attend the Academy of the Visitation.

Dr. W. F. Honan, House Surgeon to Cumberland Street Hospital, Brooklyn, arrived last evening to spend a month's vacation with his parents, Mr. and Mrs. A. Honan, of East Second street.

The many friends of Miss Mildred Mitchell, of Mason County, Kentucky, will be pleased to learn that she is again located in the city. Miss Mitchell is a rising young artist.—Cincinnati Enquirer.

For the Farmer.

We exported 40,000,000 bushels of wheat last year, and imported 1,900 bushels. The imported wheat was probably wanted for seed, or, mayhap, it may have been raised in some corner of Canada where it could not readily be sold to any other customers than people of the United States. The whole duty collected on this wheat was \$389, the duty being 20 per cent. Now it is proposed to raise the duty to 25 per cent., in order to make the farmers think that they are protected on a commodity of which they have an immense surplus to sell, and for which they are obliged to accept the prices paid in foreign markets for wheat raised by the ill paid laborer of Russia, India and Egypt! We doubt if the Flathead Indians could be fooled by the performance with which Republican Congressmen seek to impose upon the tillers of the soil in the United States.—Exchange.

A special from Cynthiana says: "Where tobacco in Harrison County made a good stand the recent rains have pushed it forward rapidly, and a larger yield will result than expected several weeks ago. There is some claim of rust from so much rain, but to what extent the leaf will be damaged is yet to be developed. Corn is promising a fine yield in this section. Grass is unusually good, but overrun with weeds. A large acreage of wheat will be sown this fall, a great deal of ground already having been broken up in readiness for seeding."

To Dispel Colds,

Headaches and fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Notice.

I have in stock a full and complete line of school books and all school supplies and solicit the patronage of the public. As to prices I will not be undersold. Let every one come and see before making purchase. Respectfully,

IF Noah had used the chosen pair Of worms that went in the ark, To fish thro' the window in the flood, From his somewhat crowded bark, And thus had used up the squirming stock In his own original way, How many a lie it had spared and saved To the fishermen of to-day. —Philadelphia Times.

FLEXIBLE, DAINTY, HEALTHFUL.

Cork Sole Turned Shoes

Are as flexible and dainty as the finest turn, and are the easiest walking Shoe made, the cork acting as a cushion to the foot. The cork being secured in a pocket, thus forming a part of the Shoe, It is impossible for it to work loose or break up. They are also the most healthful Shoe, as CORK IS A NON-CONDUCTOR OF HEAT AND MOISTURE. It prevents the warmth of the bottom of the foot from radiating and escaping in cold weather, and in warm weather it prevents the heat from the pavements from penetrating the foot.

LADIES needn't fear cold, hot, damp or rough walks. They are as flexible and dainty a Shoe as the lightest turned Shoe made. Come and see them; they are a thing of beauty and comfort. Come and see, also, the largest retail stock of Boots and Shoes in the State. Selling at 25 per cent. less than anybody else sells them.

BLUE LICK SPRINGS.

Farmers' Alliance meeting here Wednesday. This movement is growing popular.

Elder J. W. McGarvey, Jr., is holding a protracted meeting at Battle Ground Church. The singing is good and the preaching up to the usual standard. He represents the Christian Church.

Basket dinner in Cedar Grove, at Battle Ground Church, Sunday, August 31st. Big spread, fine preaching, social time. The talented young minister from Flemingsburg, Elder McGarvey, will preach at 11 o'clock.

The following card was received too late for me to respond in person: Carl L. Wheeler, at home, Mayslick, Ky., Tuesday evening, August 19, 1890, eight o'clock, to meet Mr. John E. Waterhouse. Ninety-five guests, pretty equally divided as to sexes, responded to the above summons and our young friend, Mr. Carl Wheeler, was fully equal to the occasion. Music and dancing and an elegant supper followed in due succession. Mr. and Mrs. Charles saw that no guest was neglected.

Exciting trot Wednesday—four heats from Pavilion Hotel to Battle Ground, between Captain Wilkes and Nora Norman, the first owned by Bishop Clary and the last owned by J. B. Herndon. Nora Norman led in both heats to church and Captain Wilkes in both returns. Declared a draw. Miss Kate Lewis, of Louisville, rode with the driver (Bishop Clary) of Captain Wilkes, and Mr. H. I. Irvin with the driver (Bob Parks), of Nora Norman. Distance four miles. The ten minutes. Track hard. Witnessed by several hundred spectators.

We had the pleasure of meeting the following party from Mayslick this week: Miss Lucy Harrison, Mrs. Belle Johnson, Miss Bessie Worthington, John E. Waterhouse, Garrett Worthington, Carl L. Wheeler. This party was chartered by Mrs. Chas. Wheeler. After taking in "Boone's Cave," the "Lover's Aleeve," the "Suspension Bridge," and partaking of the sparkling beverage at the mineral spring, the guests of "The Pavilion" listened with wrapt attention and evident delight to a series of piano recitals by Miss Lucy Harrison, the guest of Mrs. Wheeler.

Strawbaugh, aged forty-three, both of
this county.

REV. F. T. D. BICKLEY, a prominent
Methodist preacher, pastor of the Main
Street M. E. Church of Covington, is ac-
cused of conduct unbecoming a minister
of the Gospel, and will be tried Septem-
ber 5th. Mrs. Freeman, formerly organ-
ist of the church, figures in the case in
an unenviable light. The minister, among
other things, is charged with showing too
much fondness for the society of Mr.
Freeman's wife.

A LOUISVILLE exchange estimates that
the expense of living this year is over
double that of last year, by reason of the
scarcity of fruit and vegetables. In giving
figures, it says: "This year good corn is
worth \$1 to \$1.25 per barrel. Last year
it brought 75 cents to \$1. Potatoes are
quoted at \$2.75 to \$3 per barrel; seventy-
five cents is all they cost last year. Cab-
bage costs from \$2 to \$2.25 per barrel.
Last year it was worth \$1. New beans
are \$1.25 per bushel this year, while 25
cents would purchase the same amount
last year. Apples per barrel are \$2.50 to
\$3, while last year they went for \$1."

AMONG the acts passed by the last Leg-
islature is one which provides that "any
contract for the sale of land or any inter-
est therein, when acknowledged or proven
as deeds are now required to be acknowl-
edged or proven, may be recorded in the
county in which such lands are situated,
in the same offices and books in which
deeds are recorded, and the record of all
such contracts recorded after the passage
of this act shall, from the time of lodging
the same for record, be notice of such
contract to all persons. The clerk shall
receive the sum of fifty cents for record-
ing each contract, to be paid when the
same is lodged for record."

STONE CITY is the name selected for the
new city to be built at the junction of the
Kinnickinnick branch with the C. and O.
Railroad. The syndicate of capitalists
interested have purchased a large
tract of land and laid out some 500 town
lots, with plenty of broad avenues, parks,
etc. The little branch road is being
pushed to its terminus, some twenty
miles from the Ohio River, through one
of the richest belts of building stone, tim-
ber and fire clay in the State, and is, with
but a few miles completed, furnishing
from ten to twenty car-loads of freight
per day. Among the incorporators of the
improvement company are H. W. Fuller,
General Passenger Agent of the C. & O.
The capital stock is \$250,000.

MRS. JULIANA PARKER, formerly of this
city, died on the 29th ultimo, at the resi-
dence of her son-in-law A. H. Dillon, of
Orange, N. J. The remains arrived here
yesterday, and the funeral took place
this morning at 9 o'clock at the residence
of Mr. H. H. Cox, of Chester, Rev. Dr.
Stewart officiating. Mrs. Parker was
born on Front street, this city in
1804, her maiden name being Car-
roll. Her death recalls a sensational
tragedy which occurred at Louisville
about fifty years ago, in which her hus-
band, Orlando Parker, was murdered by
a man named Hicks, whom he had always
regarded as a friend. Parker was an offi-
cer in a bank, and was alone in the build-
ing one day when he was joined by
Hicks. The fellow waiting an opportu-
nity when Parker's back was turned
dealt him a death blow with a hammer.
Hicks' object was robbery, but while he
was pocketing the bank's money he was
interrupted by the arrival of other parties.
Detected in his awful crimes, and
realizing that punishment was inevitable,
he pulled a revolver and killed himself.

Railway Notes.

The C. & O.'s new transfer at New
Richmond, "The New Richmond," is
said to be the handsomest ferry on the
Ohio.

The annual report of the Chesapeake
and Ohio for the fiscal year ending June
30, 1890 just issued, shows gross earnings,
\$7,161,000, and net earnings, \$1,706,000.

The frontonian says: "A petition is
being gotten up by patrons of the C. &
O. to have the service of the Cincinnati
and Russell accommodation trains ex-
tended through to Huntington."

President M. E. Ingalls, of the Big
Four and C. and O., has decided to spend
the coming winter in Washington, where
he has secured apartments. He will
not leave his Virginia farm until Oc-
tober 1.

In addition to changing the name from
Ohio Valley to Pittsburgh, Ohio Valley
and Cincinnati, the capital stock of the
road has been increased from \$1,000,000
to \$1,500,000. General Warner expects
to reach Marietta this year, and to con-
tinue the road on down the river to Cin-
cinnati next year, if the people will take
hold and show a proper spirit.

The Congressional Committee on Rail-
roads has reported to the House a bill to
compel railways to equip their cars with
such couplers and appliances as will not
require trainmen to go between the ends
of the cars to couple them, and also with
automatic brakes, so that the engineer
can control the speed of the train. The
report states that 20,000 men suffer ac-
cident every year by the use of the link
and coupling-pin on cars.

Seriously Injured

MR Robert McIntyre and a younger
brother, accompanied by a Mr. Smoot,
all of Flemingsburg, drove in this city
yesterday afternoon in a buggy. As they
were coming down Plum street, their
horse took fright at a bicycle, and started
to run. The buggy was upset, and in the
smash-up, Mr. McIntyre received painful
injuries. One of his left ribs was
broken, another torn from its socket and
his face was badly lacerated and bruised.
Dr. Owens was called in and attended to
the case, after which Mr. McIntyre was
taken home. He clerks in a house at
Cincinnati and was en route to that city,
having been enjoying a vacation.

A Venerable Woman.

The venerable Mrs. Ann W. Coburn,
of this city, lacking only a month or so
of being ninety-five years of age, is visit-
ing her niece, Mrs. Ann F. Henry, at
Washington. This remarkably well pre-
served woman, the last of a long-lived
family, retains all the faculties of mind
and body in a degree truly wonderful.
Her recollection of events, now long since
matters of history, is particularly lively
and very entertaining when recounted.
So long ago as when the great Lafayette
visited Maysville, on the occasion of his
last trip to this country, Mrs. Coburn was
one of our best known and most highly re-
spected citizens.

MINER'S MAXIMS

There's nothing wonderful in
Selling good shoes at a high price;
Anybody can do that.
The wonder is, where good shoes are sold
At low prices.

That's MINER'S specialty.
Now, what in the world would we be
advertising for, if all we had to offer was
good shoes at an extra price? You've
heard about the crazy man on the tower?
He grabbed a stranger and said: "Let's
jump down and make ourselves famous."
"Pooh!" said the ready-witted stranger,
"any man could jump down; let's go down
and jump up."

We're not crazy.
Not crazy enough, at least, to think that
you'd jump at an offer of shoes from us,
when you could do just as well elsewhere.
We would not expect to win your trade
by selling good shoes at a big price, and
we wouldn't waste money advertising that
fact. Our specialty is a GOOD shoe at a
LOW price.

That's where we stand alone.
The fact we want to "ding" into every-
body's mind is that good shoes at MINER'S
cost no more than poor shoes, such as
MINER don't keep—don't keep them
because they won't spoil the record:

Incendiary Fires.

Firebugs Getting in Their Work in Brooklyn.

BLAZES IN SEVERAL HOUSES.

Large Tenement Houses Set on Fire and the Inmates Narrowly Escape Cremation—Several People Seriously Burned. Two Men Arrested.

NEW YORK, Sept. 1.—Fires that were plainly of incendiary origin started in six different localities in Brooklyn Saturday and early Sunday morning, and resulted in the injury of several persons and the arrest of two men on suspicion of being the incendiaries. Two of the fires were started in the cellars of crowded tenement houses, and in the last one, which occurred at 1:30 in the morning, three of the occupants were severely burned in making their escape. Their names were: Mary Moar, 9 years old; John Schmidt, aged 19 months, and Ann O'Reilly, aged 22 years.

The occupants of the tenement houses in most cases narrowly escaped death. Rushes were made to the windows in frantic efforts to get out and many threw themselves over the iron railings of the fire escapes, where they hung until rescued by the firemen. In addition to the injured mentioned, a baby of Annie O'Reilly, 6 months old, was so badly burned that it will probably die. Several of the tenants who were aroused from their beds by the alarm became dazed and groped their way through the smoke-filled corridors from which they were taken out by the rescuers. One fireman was overcome by smoke and removed to the hospital. The aggregate loss was small, as the fires were promptly extinguished.

Burns Caused by Incendiaries.

SAN FRANCISCO, Sept. 1.—About 9 o'clock last night fire was discovered in the large barn containing 10,000 bales of straw, adjoining the main stable on Senator Stanford's Palo Alto ranch. By the light of the burning straw two men were seen running away. Shots were fired at them, but they escaped. When the fire hose was got out it was found that a knot had been tied in the middle of it to render it useless. The fire was confined to the barn, the loss on which, with its contents, is \$7,000.

LEFT IT ALL BEHIND.

A Man With \$150,000 Lived Off of Three Cents a Day.

YOUNGSTOWN, O., Sept. 1.—The funeral of George Gilbert took place yesterday. Gilbert's death, which occurred Thursday, reveals some strange doings of the man, who was a confirmed miser. During the last fifty years he had lived alone, devoting his time to saving money, which he deposited in banks. It was his boast that his living the year round did not cost him to exceed three cents per day.

In 1885 he sold a neighbor a load of hay for \$27. Gilbert punctiliously collected the interest each year, and last year he accepted the principal, it having earned him over \$100. Gilbert leaves an estate valued at \$125,000 to \$150,000, and has no relatives residing in this section.

FARM MORTGAGES.

Foreclosures in Kansas During the First Six Months of 1890.

TOPEKA, Kan., Sept. 1.—The Capital publishes letters from forty-three district court clerks showing the number of foreclosures of farm mortgages in their respective counties during the first six months of 1890. The total number of foreclosures is 1,103, about twenty-five to the county.

The total for the 106 counties of the state on the same basis would be 2,650, or probably about \$2,000,000.

A significant feature of the report is the fact that a large portion of the foreclosures are on unoccupied lands bought up and mortgaged for what they would bring by speculation.

Fatal Freight Switch-Up.

EVANSVILLE, Ind., Sept. 1.—A heavily-laden freight train crashed through the Evansville and Terre Haute yards Saturday night, wrecking a coal office, and plowed across the street into a brick building. George Moxel, an old citizen, was passing along, and was knocked down and crushed by the wheels of the rear car, which remained on him for nearly half an hour. His sufferings were terrible, and he died while being conveyed to his home. The accident was caused by a "hostler," who was "stabbing" the engine, but ran into the wrong switch, and went crashing into the train.

Reporter As a Detective.

OMAHA, Neb., Sept. 1.—At 4 o'clock Saturday morning the dead body of Ole Littlefitch, a Norwegian cooper, was found lying on the pavement in the lower part of town. He had been crushed by a bludgeon which lay by his side. Robbery was the motive. Although the facts were reported to the police at once, no clue was found to look up the case, nor was any suspicion of murder held until a World-Herald reporter investigated the case and discovered the clew that points to certain murder and probable arrest of the criminal.

He Proved a Bigamist.

RICHMOND, Ind., Sept. 1.—L. D. Stabbs, attorney of Helen M. Miller Levy, has filed a complaint against Edward S. Levy for annulment of their marriage, which occurred April 8, 1890. It was courtship of only a fortnight, and on July 30 she discovered that he had another wife, to whom he was married at Milwaukee, December 31, 1885, and from whom he was never divorced. He came here with a clothing store that located across the alley from her millinery store, and he is now in Kansas City.
